Portrait—Nina—Year 11

Week 9 has been a shorter week than usual but we have still been hard at work at Windsor High. We hope that all of our families and the extended community have a safe Easter break and we look forward to seeing our students upon their return on Tuesday.

Mrs West presented some lucky winners with Pokemon card sets this week. Congratulations to Tiaan, Patrick and Janiyah.

SUCCESS

When promoting The World's Greatest Shave at assembly, we heard some personalised stories and important reasons behind why some of our staff and students are participating in the event. Some of our community are shaving their heads, some are colouring their hair and others are cutting their hair. This takes an enormous amount of courage and we are hoping to raise plenty of money to support the Leukemia Foundation, in their efforts to fight blood cancer. The World's Greatest Shave will now take place on the last day of the term which is Friday, the 12th of April.

So far the following incredible students and staff have signed up to shave or colour their hair: Alice (Year 11), Caleb (Year 9), Elouise (Year 9), Michelle Munachen (Front Office), Mrs Moloney (Science) We aim to raise \$7000 this year and are \$1,800 in! Please follow the link to donate to our students and staff who are participating.

Our students in Years 9 and 11 were presented with Deputy Principal's awards this week. It takes an enormous amount of effort to achieve this level of award and these students consistently promote our STAR values across the school. Well done to these students, and we encourage all students to aspire to this level of award.

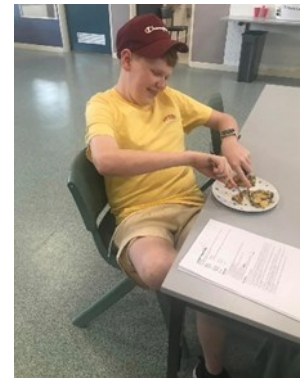

Our STAR awards were presented with an Easter theme this week, with Mr Feau donning the bunny ears and presenting eggs filled with prizes. Tamara, Lily and Abbigail were honoured for their contributions to Harmony Day. Mrs Walker and Ms Mooney were awarded the staff prizes of the week due to the hard work that was attributed to the dance performances at our Harmony Day assembly.

Last week our Support Unit students attended a WHS training session at Work Experience. Congratulations Chinma for starting Work experience, she did really well on her first day.

Support Students refined their knife skills and cooked a delicious loaded vegetable frittata. Some students wanted seconds!

Students in both Year 11 Biology classes completed a depth study at Longneck Lagoon this week on Green and Golden Bell Frogs, whereby students conducted terrestrial and aquatic tests to collect data for their first assessment task. Although it sprinkled rain for the majority of the day, the students did a fantastic job at the fieldwork and developed new scientific skills whilst engaging in hands-on practical tests.

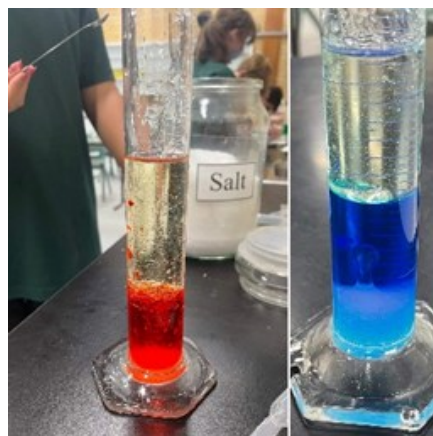

Year 12 went to Cables Water Park as part of the Life Ready program, focussing on team-building in an effort to bond over spectacular fails on the inflatables!

Congratulations to Belle and Makayla for representing WHS at the Sydney West Swimming Carnival on Thursday. Belle qualified for CHS with three 3rd places while Makayla beat her PB by 3 seconds - well done girls!!

Year 7 students are currently learning about different states of matter. 7W students with Ms Greig learnt about density and made their own DIY lava lamps to better understand the concept and develop their observational skills.

Year 9 Science students took part in an escape room style game in which they had to answer questions about bacteria and viruses to escape from the crazy scientist's lab!

Jhye, Evie, Laura, Matilda and Samantha spent Friday and Saturday at the Royal Easter Show assisting in exhibiting/handling dairy goats for some of the best breeders in Australia. They were long days but the students were great ambassadors for our school and were greatly appreciated. Sore feet, eating too many lollies from show bags and at times handling very difficult animals were some of the hardest parts but they were all still smiling at the end. Congratulations - Ms Ruis is so proud of you! [#LoveWhereYouLearn](#)

DF3 full of students attending Monday afternoon Maths Homework club. Don't forget to sign up!!

Year 8W Mathematics class engaging in lively equation-solving competition at the whiteboard. Each student enthusiastically took their turn. Well done, students!

The Year 11 Food Technology class used their skills and creativity to whip up a batch of mouthwatering cinnamon scrolls in their most recent practical lesson.

Fresh from the stove, our Year 11 Hospitality students present their latest culinary creation: toasted brioche with fresh berries, mascarpone, and warm chocolate sauce. See if you can spot our special visitor.

The first practical assessment for our year 10 Food Technology class was a thrilling success! Students prepared mouth-watering meals ideal for holidays in distinctive locations. We are impressed by their creativity and enthusiasm, well done to all!.

In the heat of the kitchen, Year 11 Hospitality students were tasked with crafting the perfect BLAT wrap. As they raced against time and each other, it became clear that most participants had a tendency to add cheese, so we renamed it a BLACT.

MC4 and MC5 went on an excursion to the city today, practicing their travel training while taking in the sights.

Kind regards
J Lidbury
Deputy Principal

World's Greatest Shave 2024

Happening Friday April 12

Michelle from the Front Office & Ms Moloney from Science have been named as the staff representatives for this year's shave. Additionally, several students who are willing to shave or colour their hair.

Remember if you would like to colour or shave your head on the day, you need to collect and return a signed permission form to the Front Office.

Please use the QR code to donate to the Windsor High School team. Any amount will help the team raise funds for the Leukemia Foundation.
